The former *Home and Away* star swears by a creamy lipstick...

...and keeps her skin moisturised at all times!

Kate Ritchie's BEAUTY BAG

The actress reveals her beauty secrets

What are your beauty bag essentials?

Bobbi Brown Creamy Lip Color in Honeysuckle, \$44. I actually wore this shade on the day I married Stuart, so it is a bit of a favourite now! And a colour matched concealer is a must – I have been using Bobbi Brown Foundation Stick in Natural Tan, \$72.

The one product you can't live without?

My Tweezerman tweezers (pictured: Mini Slant, \$26.95) and Vaseline Dry Skin Conditioning Lotion, \$7.29 (375ml).

Any favourite skincare products?

The Vaseline range. There is nothing better than healthy, soft, glowing skin. I love the Cocoa Butter Smoothing Body Butter, \$10.99.

What is your biggest beauty blunder?

On me, it is red lips – now or in the '90s. I feel like I'm a child again wearing my mother's lipstick!

What's your best beauty tip?

Moisturise your body every time you step out of the shower, drink lots of water, always wear an SPF... oh, and smile more!

Essential hair products?

Argan oil for shiny smooth hair (pictured: Argan Oil Hair Treatment, \$34.95). Just be careful not to use too much.

Favourite fragrance?

I alternate between Chanel No. 5 EDP, \$159 (50ml), and Daisy by Marc Jacobs EDP, \$110 (50ml). **NI**

Did you know?

One in four Aussie women believes that a high-end moisturiser delivers the same results as Botox!

HOT TIP of the week!

We love the advice 64-year-old Susan Sarandon has on ageing: 'You have to start loving yourself pretty early on... because if you're finding flaws in your perfect 24-year-old body you're really going to be a mess when you're 44 or 64. When you're younger you want to be perfect but later you learn that perfect isn't really that interesting.'

SUMMER'S NATURAL WONDERS

With her enviable glowing skin, we were interested to hear model Megan Gale was spotted buying the multi-tasker Jurlique Lavender Hydrating Mist, \$23. 'It's easily absorbed and refreshes and balances the skin throughout the day,' says Jurlique's national education manager Danielle Williams. 'Try storing it in the fridge for a cooling effect on a hot day – it's perfect for the summer months.'
