Blunt bangs

The new hot fringe is chunky and cut straight across the forehead, sported by stars such as **Hilary Duff** and **Rose Byrne**. According to Pantene's expert hair stylist **Barney Martin**, most people can pull off this cut as long as hair texture and face shape are considered. **Top tip** A blunt cut works best with super-sleek locks.

Boho babe

Relaxed, loosely pulled-back "hippie hair", as sported by **Amanda Seyfried**, is here to stay. For a twist on the style, copy **Selena Gomez** and try a plaited headband or clipped-on hairpiece. **Top tip** Relaxed waves add movement and make this cut romantic.
