# Get the LOOK

How to look great every day

**Sultry eyes, radiant skin, classic red lip ... Laura Dundovic does old-school glamour flawlessly**

## WINGED SMOKY EYES

This is easier than it looks, plus has an "eye-lift" effect. Start by lightly dusting on a grey shadow over the lids, next blend a charcoal shadow on the outer corners to create a winged look. To add intensity and make eyes pop, apply a black shadow along the top and bottom lash line and blend. Finish with false lashes. **Avon True Color Eyeshadow Quad in Urban Skyline \$29.99** contains all the colours you need. **Designer Brands Lashes in Charming \$8.99** have built-in adhesive rims for easy application.

**Laura Dundovic**

Every inch the beauty queen, the former Miss Universe Australia, 26, knows classic makeup never dates.

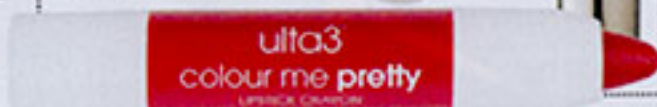

## SMOOTH IT OVER SILKY LOCKS

With such striking makeup, opt for some low-effort locks. Part damp hair on the side and apply a blowdry cream. Brush hair smooth using a paddle brush as you blowdry for a silky result with a hint of volume. Lock in shine and height with a mist of hairspray. **label.m Sleek Blow Out Cream \$39.95** gives strands shine with the help of avocado oil. **TIGI S-Factor Vivacious Hairspray \$34.65** leaves styles soft and not stiff.

## CHERRY-RED LIPS

Instead of an intensely pigmented lippie, Laura's used a moisturising lip balm pencil. Finish with glossy balm – it gives the effect of plump lips but doesn't dry them out. **ulta3 Colour Me Pretty Lipstick Crayon in Pretty Poppy \$4.95** is easy to apply. **Lanolips 101 Ointment \$17.95** keeps lips in check with a hint of shine.

## GLOWING SKIN

Use highlighter sparingly or you'll look sweaty. Over foundation, buff it on tops of cheekbones, nose-bridge, middle of forehead and on the chin. **Face Of Australia Glamazon Highlighter Kit in Leopardess \$9.95** is a highlighter and bronzer in one. **L'Oréal Paris Lumi Magique Touch of Light Highlighting Pen \$27.95** has a pointed tip for precision.

## TRIED & TESTED

**PRODUCT** Hiruscar scar cream \$29.95  
**TESTER** Woman's Day staffer Kelly Kruger

**WHAT IS IT?** This gel has five cosmetic active ingredients that work to moisturise, smooth and soften the appearance of scars. You can use it all over your body, it absorbs quickly without leaving an oily residue and can go under makeup.

**KELLY SAYS** "Growing up I always had quite bad acne and it still worries me as an adult, so in the lead-up to my recent wedding day I was working as hard as I could to get my skin looking its best – both in terms of

breakouts and scarring. The non-oily Hiruscar gel was well suited to my oily skin. I only got to use it for a short amount of time before the big day arrived but the more I apply it, the better the visible effects on my scars."

**Hiruscar**

Scarrem gel to reduce the appearance of scars. Use both daily and weekly.
